

A woman with dark hair, wearing a light pink top, is lying on her back on a lush green lawn. She is smiling warmly at the camera. A baby is lying on top of her, also smiling. In the background, a person in a blue shirt is sitting on the grass, and there are some white objects, possibly baby strollers or equipment, out of focus. The overall scene is bright and sunny, suggesting a park or outdoor setting.

Prams & Strollers

A Quick Guide to Suitability

Travel System Strollers (allows Car Infant Carrier option)

- Allows for an Infant Car Seat to attach to stroller
- Car Infant Carrier is easy to insert into stroller, allowing you to transfer your child with least disturbance
- In your early months together maintaining sleeping patterns will be vital and an Infant Carrier helps to reduce interruptions
- Base of Infant Carrier remains in the car, allowing you to click in and travel
- When attached to stroller baby faces mother for newborn closeness

Reverse Handle Strollers

- Facing each other allows you to keep contact, interact with your child and develop a stronger bond
- Very versatile - starts as a pram where baby is facing mother and lies flat for extra newborn snuggle factor
- Converts to a forward-facing seat position so baby/toddler can sit up and view the world
- Able to fix wheels for rough ground or swivel wheels for easy steering

Umbrella Strollers

- Great light weight second unit which is compact for total portability
- Easy storage at home or in the boot of your car
- Great for an active day out and about

Double Strollers

- Enables 2 children of same or different age to sit side by side
- Allows independent adjustable leg rest, back rest, and canopies for each child
- Fits through standard doorway 780mm
