# MANUAL HANDLING TECHNIQUES

---

## The **SMART** lifting technique

This technique can be used to pick up small light loads from low levels.

### **Size up the Load**

- Assess the load (size, shape and weight).
- Assess whether the load needs to be moved;
- Where is it going to be placed” Check that there are no obstructions;
- Assess whether mechanical or human assistance is required.

### **Move the Load as close to the body as possible**

- A load is heavier to lift or carry if it is not close to the body.
- The whole hand should be used to ensure a firm grip.

### **Always bend your knees**

- Maintain balance.
- Keep feet apart and in a comfortable position.
- Minimise lower back bending.
- Bend knees preferable at as large an angle as possible but not at a right angle - use a semi squat in preference to a full squat.

### **Raise the load with your legs**

- Achieve the lift smoothly and without jerkiness.
- Maintain the normal curvature of the spine to allow the force of the load to be distributed evenly from the spine to the pelvis.

### **Turn your feet in the direction that you want to move the load.**

- Avoid unnecessary bending, twisting and reaching.
- Change direction by turning your feet and not your back.
- To set the load down, squat down, keep your head up and let
- Let your legs do the work.

**Remember to ‘THINK TALL’ chest lifted, shoulders relaxed, chin tucked in and head level.**

# TO USE THE STEELCRAFT RECEIVERS SUPPLIED WITH THE INFANT CARRIER LOWER FRAME

---

## IMPORTANT NOTE

BRITAX RECOMMEND THE STEELCRAFT RECEIVERS SUPPLIED WITH THE INFANT CARRIER LOWER FRAME BE ATTACHED TO THE STROLLER FRAME BEFORE INSTALLING AND USING THE UNITY INFANT CARRIER ON THE INFANT CARRIER LOWER FRAME.

THE STEELCRAFT RECEIVERS CREATE MORE SPACE BETWEEN THE TOP SEAT AND THE UNITY INFANT CARRIER IN THE LOWER FRAME.

- A Take one Steelcraft receiver at a time and align the receivers with the stroller frame mouldings. The receiver extends towards the front of the stroller and the ribbed section of the mouldings face inwards.
- B Insert the receiver into the stroller mouldings. Push down on the receiver until you hear a 'click' which indicates the receiver has locked into the stroller frame mouldings.
- C Pull up on each receiver to check they are locked on.

# TO USE THE STEELCRAFT RECEIVERS SUPPLIED WITH THE INFANT CARRIER LOWER FRAME

---

- D Install the stroller seat or Steelcraft infant carrier.

**To install the stroller seat on the Strider Compact stroller using the Steelcraft receivers:** Please refer to Page 63 of the Strider Compact Instruction Manual supplied with the stroller.

**To install the Steelcraft Infant Carrier on the Strider Compact stroller using the Steelcraft receivers:** Please refer to Page 64 of the Strider Compact Instruction Manual supplied with the stroller.

**To install the stroller seat on the E-Brake stroller using the Steelcraft receivers:** Please refer to Page 97 of the E-Brake Instruction Manual supplied with the stroller.

**To install the Steelcraft Infant Carrier on the E-Brake stroller using the Steelcraft receivers:** Please refer to Page 98 of the E-Brake Instruction Manual supplied with the stroller.

- E To remove the receivers, press the button on top of the receiver and pull the receiver up out of the stroller frame mouldings.

# TO FIT THE INFANT CARRIER LOWER FRAME

## IMPORTANT NOTES

PLEASE REFER TO PAGE 3 FOR LIFTING TECHNIQUES.

- WHEN FITTING THE CLICK & GO INFANT CARRIER LOWER FRAME TO THE STROLLER, BE AWARE OF THE DANGER OF BEING INJURED BY MOVING PARTS AND LOCKING DEVICES DURING THE PROCESS.
